

	DiaSorin Italia S.p.A. UK Branch Central Road Dartford, DA1 5LR www.diasorin.co.uk	SAFETY DATA SHEET MSDS_en_K_MSDS58
Language	en	
Revision No.:	03	
Date:	2024-01-16	

SECTION 1 IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier

1.1.1 Trade name/designation	1.1.2 Code
[CONTROL +] Positive Control [CONTROL -] Negative Control	Kit components: LIAISON® Murex Control HCV Ab [REF] 318241
[CONTROL +] Positive Control [CONTROL -] Negative Control	Kit components: LIAISON® XL Murex Control HBsAg Qual [REF] 318251
[CONTROL +] Positive Control [CONTROL -] Negative Control	Kit components: LIAISON® XL Murex Control HIV Ab/Ag HT [REF] 318291

The information included in this safety data sheet exclusively refers to the components mentioned in 1.1.1.

Chemical denomination

Solution containing a reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H - isothiazol-3-one [EC no. 220-239-6] (3:1)

1.2 Relevant identified uses of the substance or mixture, and uses advised against

Laboratory reagents for in vitro diagnostics. ProClin® is used as a preservative in Section 1.1 products. See package insert for instructions. Do not use products for purposes other than those designated. Improper use could result in uncalculated safety or exposure risks.

1.3 Details of the supplier of the safety data sheet

Manufacturer: DiaSorin Italia S.p.A. UK Branch
Central Road
Dartford, DA1 5LR
Tel: +44 (0) 844 225 8999

Responsible Person: E-mail: MSDSHelp@Diasorin.co.uk

USA Distributor: Diasorin Inc.
1951 Northwestern Avenue
Stillwater, MN 55082 USA
Tel: 651-439-9710

1.4 Emergency telephone number

Country USA

National Poison Control Center

Telephone Number

Telephone number: 800-222-1222

SECTION 2 HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

The product is classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements). The product thus requires a safety datasheet that complies with the provisions of EC Regulation 1907/2006 and subsequent amendments.

Any additional information concerning the risks for health and/or the environment are given in sections 11 and 12 of this sheet.

REGULATION (EC) No 1272/2008	
Skin sens. 1	H317

2.2 Label elements

REGULATION (EC) No 1272/2008	
SIGNAL WORD:	Warning
SYMBOLS / PICTOGRAMS:	 GHS07 Exclamation mark
HAZARD STATEMENTS:	H317 May cause an allergic skin reaction.
PRECAUTIONARY STATEMENTS:	P261 Avoid breathing dust/fume/gas/mist/vaporous/spray. P280 Wear protective gloves/protective clothing/eye protection/face protection. P363 Wash contaminated clothing before use.

Contains: reaction mass of: 5-Chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1).

2.3 Other hazards

Potential biological hazard: contains biological materials of human/animal origin.

SECTION 3 COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substances

N.A.

3.2 Mixtures

Mixture of: (chemical name of substances in mixture, (example: 5-chloro-2-methyl-2H-isothiazol-3-one [EC No. 247-500-7]; 2-methyl-2H-isothiazol-3-one [EC No. 220-239-6] (3:1)) .

CAS No.	CE No.	Index No.	Concentration	Classification Reg. 1272/2008 (pure substance)	
55965-84-9	--	613-167-00-5	≤ 0.002 %	Acute Tox. 3	H331
				Acute Tox. 3	H311
				Acute Tox. 3	H301
				Skin Corr. 1B	H314
				Skin Sens. 1	H317
				Aquatic Acute 1	H400
				Aquatic Chronic 1	H410

Refer to Section 16 for complete text of hazard indication and class.

SECTION 4 FIRST AID MEASURES

4.1 Description of first aid measures

Seek medical advice for first aid; protect first aid providers; wear suitable hand and eye protection and, if necessary, breathing protection.

Inhalation: Take the person outdoors to fresh air and seek medical advice. If not breathing give artificial respiration. If breathing is difficult, give oxygen.

Skin Contact: Remove contaminated clothing. Disinfect and wash skin with soap and water. Seek medical advice.

Eye contact: Rinse thoroughly with water or suitable eye wash. Seek medical advice.

Ingestion: Rinse mouth. Do not induce vomiting. Seek medical advice.

4.2 Most important symptoms and effects, both acute and delayed

For symptoms and effects caused by the contained substance(s), see chapter 11.

4.3 Indication of any immediate medical attention and special treatment needed

Seek medical advice as soon as possible.

SECTION 5 FIREFIGHTING MEASURES

5.1 Extinguishing media

Use suitable extinguishing media, such as: carbon dioxide, foams, sprayed water, sand or aggregates.

5.2 Special hazards arising from the substance or mixture

Non-combustible preparation. Ambient fire may liberate hazardous vapours.

5.3 Advice for firefighters

Wear suitable protective clothing, including helmet and mask with self-contained breathing apparatus, CE certified according with Directive 89/686/EEC or NIOSH approved (USA).

Remove containers from the area of the fire if it is possible to do so without incurring risks.

Prevent fire-fighting water from entering surface water or groundwater. Collect in containers suitable for disposal.

SECTION 6 ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

Free the contaminated area of non-emergency personnel.

Let fresh air enter contaminated area.

Avoid coming into contact with the substance and handling damaged containers without wearing suitable protective clothing and personal protection equipment for the face, hands and air-ways, CE certified according with Directive 89/686/EEC or NIOSH approved (USA).

6.2 Environmental precautions

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Discharge into the environment must be avoided.

6.3 Methods and material for containment and cleaning up

Cover spillage with inert absorbent material.

Recover spilled material by mechanical means and collect in clean and suitably labelled containers.

Thoroughly wash and disinfect contaminated surfaces.

6.4 Reference to other sections

For disposal see section 13 and use personal protective equipment as indicated in section 8.

SECTION 7 HANDLING AND STORAGE

7.1 Precautions for safe handling

Avoid contact with eyes, skin or clothing. Use in a suitably ventilated room. Do not eat, drink or smoke during use. Do not pipette by mouth. Wear lab coats, safety goggles and disposable gloves. Avoid splashing or forming an aerosol. Wash hands carefully on completion of operations.

7.2 Conditions for safe storage, including any incompatibilities

Store the preparation at 2-8°C hermetically sealed and away from the light. Keep away from foodstuffs, drinks and animal feed. Protect containers against damage.

7.3 Specific end uses

The mixtures are intended specifically for in vitro use, for the examination of samples of human origin. Handle in accordance with good laboratory practice (GLP), while also considering the risks deriving from the materials under analysis. Follow universal precaution guidelines for handling infectious agents and good laboratory practices such as those established by the US Centers for Disease Control and the National Institutes of Health, or the World Health Organization.

SECTION 8 EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

Contains no substances with occupational exposure limit values.

8.2 Exposure controls

Eyeface protection: wear safety goggles or visor; do not use contact lenses. Protect eyes with safety glasses or goggles based upon the hazards in the workplace and the potential exposure risks. Safety glasses and goggles should meet, at a minimum, the ANSI standard Z87.1 (US) / EN 166 (EU) or an equivalent level of protection.

Hand protection: Prevent skin contact, and use chemical resistant gloves. With normal use of products for diagnostic purposes, disposable nitrile gloves or equivalent protection is adequate. Handle materials in accordance with good industrial hygiene and safety practices. Wash hands thoroughly after handling, and before eating or drinking. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices..

Body protection: Prevent skin contact and protect clothing. Wear a lab coat to prevent skin contact.

Breathing protection: avoid inhaling aerosol. None required with normal use of products for diagnostics purposes and adequate ventilation conditions exist. The use of adequate ventilation must always take priority over PPE. If it is not possible to keep the concentration below the permitted workplace exposure thresholds, then respiratory protection must be used.

SECTION 9 PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

PROPERTY

APPEARANCE: LIQUID

ODOR: N/A

ODOR THRESHOLD: N/A

PH: 6 TO 8

MELTING POINT/FREEZING POINT: NO INFORMATION AVAILABLE

INITIAL BOILING POINT AND BOILING RANGE: NO INFORMATION AVAILABLE

FLASH POINT: NO INFORMATION AVAILABLE

EVAPORATION RATE: NO INFORMATION AVAILABLE

FLAMMABILITY (SOLID, GAS): N/A

UPPER/LOWER FLAMMABILITY OR EXPLOSIVE LIMITS: N/A

VAPOR PRESSURE: NO INFORMATION AVAILABLE

VAPOR DENSITY: NO INFORMATION AVAILABLE

RELATIVE DENSITY: NO INFORMATION AVAILABLE

SOLUBILITY(IES): NO INFORMATION AVAILABLE

	DiaSorin Italia S.p.A. UK Branch Central Road Dartford, DA1 5LR www.diasorin.co.uk	SAFETY DATA SHEET MSDS_en_K_MSDS58
Language	en	
Revision No.:	03

PROPERTY

PARTITION COEFFICIENT (N-OCTANOL/WATER): NO INFORMATION AVAILABLE

AUTO-IGNITION TEMPERATURE: NO INFORMATION AVAILABLE

DECOMPOSITION TEMPERATURE: NO INFORMATION AVAILABLE

VISCOSITY: NO INFORMATION AVAILABLE

EXPLOSIVE PROPERTIES: N/A

OXIDIZING PROPERTIES: NO INFORMATION AVAILABLE

9.2 Other information

No data available.

SECTION 10 STABILITY AND REACTIVITY

10.1 Reactivity

No information available.

10.2 Chemical stability

Stable in recommended storage conditions.

10.3 Possibility of hazardous reactions

No information available.

10.4 Conditions to avoid

No information available.

10.5 Incompatible materials

No information available.

10.6 Hazardous decomposition products

No information available.

SECTION 11 TOXICOLOGICAL INFORMATION

11.1 Information on toxicological effects

No product information available;

information on hazardous components: reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H -isothiazol-3-one [EC no. 220-239-6] (3:1)

Acute toxicity by mouth, skin and inhalation

LD-50 (oral), rat: 60 mg/kg (active isothiazol)

LD-50 (dermal), rabbit: 80 mg/kg (active isothiazols)

LC-50 4-hour (inhalation), rat: 330 mg/m³ (active isothiazols)

In humans, solutions containing more than 0.5% (5000 ppm) active isothiazols cause severe skin irritation and may be corrosive to the mucous membranes and cornea.

Corrosion, irritation and sensitization

The substance has manifested sensitizing effects.

In humans, solutions containing more than 0.5% (5000 ppm) active isothiazols cause severe skin irritation and may be corrosive to the mucous membranes and cornea.

The application of single doses of 0.5 ml of an aqueous solution (with active isothiazols at 560, 2800 and 5600 ppm) to the skin of rabbits, causes after 24 hours, severe skin damage at 5600 ppm and moderate damage at 2800 ppm; no effects are observed at 560 ppm.

Long-term toxicity (sub-acute, sub-chronic, chronic)

In a study conducted on rats, the inhalation of concentrations of active isothiazols of 0, 0.027, 0.23 and 0.89 mg/m³ in aerosol form, for 6 hours/day for 5 days/week for 13 weeks, caused, at the high doses, reduced body growth in both sexes, reduced blood proteins in females and reduced spleen weight in males. Histopathological examination revealed mild rhinitis at the dose of 0.23 mg/m³.

Carcinogenicity, Mutagenicity and Reproductive Toxicity (fertility and development)

	DiaSorin Italia S.p.A. UK Branch Central Road Dartford, DA1 5LR www.diasorin.co.uk	SAFETY DATA SHEET MSDS_en_K_MSDS58
Language	en	
Revision No.:	03	
Date:	2024-01-16	

In a study of carcinogenicity conducted on mice by means of cutaneous administration of substance, the substance did not manifest cutaneous and/or systemic carcinogenic potential.

Assays of mutagenicity showed the substance to be cytotoxic and directly mutagenic in vitro, in two species of bacteria and one mammalian cell line. In studies in vitro on mammalian cells it was not observed to cause damage to DNA, and in vivo, no formation of bonds with DNA was observed.

The substance manifested no reproductive toxicity.

SECTION 12 ECOLOGICAL INFORMATION

12.1 Toxicity

Mixture: no information available.

Information on hazardous components reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H -isothiazol-3-one [EC no. 220-239-6] (3:1); short-term effects:

Parameter	Animal species	Time of exposure	Data
LC50	Fish	96 hours	0.19 mg/l
EC50	Crustaceans	48 hours	0.16 mg/l

long-term effects: no information available.

12.2 Persistence and degradability

No information available.

12.3 Bioaccumulative potential

No information available.

12.4 Mobility in soil

If spilled, may enter ground.

12.5 Results of PBT and vPvB assessment

This substance/mixture contains no components to be persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

12.6 Other adverse effects

No information available.

SECTION 13 DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods

Dispose of in accordance with all federal, state and local environmental regulations.

SECTION 14 TRANSPORT INFORMATION

The mixture is not to be considered hazardous within the meaning of the provisions in force governing the transport of hazardous materials by road (ADR), rail (RID), sea (IMDG code) and air (ICAO, IATA); transport at 2-8°C.

14.1 UN number: N.A.

14.2 UN proper shipping name: N.A.

14.3 Transport hazard class(es): N.A.

14.4 Packing group: N/A.

14.5 Environmental hazards: N.A.

14.6 Special precautions for user: N.A.

14.7 Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code: N.A.

SECTION 15 REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Canada	This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR.	
	DSL:	Y
	NDSL:	N
EU	Classification and procedures used to derive the classification for products listed in Section 1.1 according to European Union regulations and directives: 67/548/EEC, 1999/45/EC, 2001/60/EC and Regulation (EC) 1272/2008. This MSDS complies with regulations on Safety Data Sheet preparation, Directive 2001/58/CE and REACH Regulation 1907/2006/CE, article 31.	
	Seveso Category:	None
	EC No. 1907/2006 – Candidate List:	N
	EC No. 1907/2006 Annex XIV – Authorization:	N
	EC No. 1907/2006 Annex XVII - Restrictions:	Component Preparation: 3
Germany	Water Hazard Class:	WGK-1
United States	Product components listed in Section 1.1 are classified in accordance with OSHA Hazard Communication Standard, 29 CFR 1910.1200, and individual US state Right-to-Know laws.	
	CAA:	N – Does not contain any hazardous air pollutants (HAPs) or Class 1 Ozone depleters.
	CWA:	N
	CERCLA:	N
	SARA 302:	N
	SARA 313:	N
	TSCA:	Y
	CA Prop 65:	N

15.2 Chemical safety assessment

No chemical safety assessment has been produced for the mixture and the substances contained therein.

SECTION 16 OTHER INFORMATION

Text of hazard (H) indications mentioned in section 2-3 of the sheet:

Acute Tox.: Acute toxicity

Skin Corr.: Skin corrosion

Skin Sens.: Skin sensitization

Aquatic Acute: Hazardous to the aquatic environment, acute toxicity

Aquatic Chronic: Hazardous to the aquatic environment, chronic toxicity

H331 Toxic if inhaled

H311 Toxic in contact with skin

H301 Toxic if swallowed

H314 Causes severe skin burns and eye damage

H317 May cause an allergic skin reaction

H400 Very toxic to aquatic life

H410 Very toxic to aquatic life with long-lasting effects

Text of precautionary (P) statements mentioned in section 2-3 of the sheet:

P261 Avoid breathing dust/fume/gas/mist/vaporous/spray.

P280 Wear protective gloves / protective clothing / eye protection / face protection

P363 Wash contaminated clothing before reuse
