Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

**Section 1 Identification of the substance/mixture and of the company/undertaking**

**1.1 Product identifier**

**Product name** Particle/Conjugate (Compartment R1a)  
**Part number** Component of P/N 33560  
**Series name** ACCESS

**1.2 Relevant identified uses of the substance or mixture and uses advised against**

**Product use** For In Vitro Diagnostic Use. See product literature for details.

**1.3 Details of the supplier of the safety data sheet**

**Manufacturer**

Beckman Coulter, Inc.  
250 S. Kraemer Blvd  
Brea, CA 92821, U.S.A.  
Tel: 800-854-3633

**Supplier**

CANADA  
Beckman Coulter Canada LP  
7075 Financial Drive  
Mississauga, ON L5N 6V8  
Canada  
1-800-463-7828

### Section 2 Hazards identification

#### 2.1 Classification of the substance or mixture

##### Product description

Mixture

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 2 Hazards identification (Continued)

Reddish-brown when particles suspended; Liquid; Odorless

#### Classification according to EC 1272/2008 (CLP/GHS)

Skin Sensitization Category 1, H317

Aquatic Hazard Long term, Category 3, H412

#### Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Aquatic Hazard Acute, Category 3

Aquatic Hazard Long term, Category 3

#### 2.2 Label elements

#### According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

##### Hazardous ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

##### Pictogram

##### Signal word

WARNING

##### Hazard statements

H317 May cause an allergic skin reaction.

H412 Harmful to aquatic life with long lasting effects.

##### Precautionary statements

##### Prevention

P261 Avoid breathing vapours.

P272 Contaminated work clothing should not be allowed out of the workplace.

P273 Avoid release to the environment.

P280 Wear protective gloves, protective clothing and eye/face protection.

##### Response

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before use.

##### Storage

None

##### Disposal

P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most significant precautionary statements.

# SAFETY DATA SHEET

Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

## Section 2 Hazards identification (Continued)

### 2.3 Other hazards

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

## Section 3 Composition and information on ingredients

### 3.2 Mixtures

| Hazardous ingredients:                                                                                                                                                                                |          | Hazard classification of pure ingredients                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                          |      |

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 3 Composition and information on ingredients (Continued)

- 2 - Substance with Community workplace exposure limits  
8 - Present at concentration below the cut-off limits.  
9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits

See Section 15 for additional regulatory information

See Section 16 for description of hazard class and hazard statements

### Section 4 First aid measures

#### 4.1 Description of first aid measures

- Inhalation** If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.
- Eye contact** If product enters eyes, rinse eyes gently with water as a precaution.
- Skin contact** In case of skin contact, rinse with water as a precaution.
- Ingestion** If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

#### 4.2 Most important symptoms and effects, both acute and delayed

- May cause an allergic skin reaction.  
See Section 11 Toxicological Information for more detailed health information.

#### 4.3 Indication of any immediate medical attention and special treatment needed

- No further relevant information available. Refer to Section 4.1.

### Section 5 Firefighting measures

- 5.1 Extinguishing media** In case of fire use carbon dioxide (CO<sub>2</sub>), dry chemical, water spray or foam.  
For large fires use extinguishing media suitable for surrounding fire.

#### 5.2 Special hazards arising from the substance or mixture Special fire and explosion hazards

- No special hazards determined.

#### Hazardous combustion products

- No combustion products posing significant hazards are expected from this product (an aqueous solution).

#### 5.3 Advice for firefighters

- Protective equipment** Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.
- Additional information** No further relevant information available.

### Section 6 Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 6 Accidental release measures (Continued)

|                                                                 |                                                                                                                                                                                                                                                    |
|-----------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions</b>                                     | This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.<br>Wear protective gloves, protective clothing and eye/face protection.                                            |
| <b>6.2 Environmental precautions</b>                            | Contain spill to prevent migration.<br>Do not allow the undiluted product to enter sewers/surface or ground water.<br>Dispose of contents/container in accordance with local regulations                                                           |
| <b>6.3 Methods and material for containment and cleaning up</b> |                                                                                                                                                                                                                                                    |
| <b>Spill and leak procedures</b>                                | As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations. |
| <b>6.4 Reference to other sections</b>                          | Refer sections 8 and 13.                                                                                                                                                                                                                           |

### Section 7 Handling and storage

|                                                                         |                                                                                                                                                                                                                                                             |
|-------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>7.1 Precautions for safe handling</b>                                | This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.                                                                                                     |
| <b>7.2 Conditions for safe storage, including any incompatibilities</b> | Store at 2 to 10°C, as directed on the product label.<br>To maintain product quality, store according to the instructions in the product labeling.<br>Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10). |
| <b>7.3 Specific end uses</b>                                            | No further relevant information available.                                                                                                                                                                                                                  |

### Section 8 Exposure controls and personal protection

|                                                |                                                                                  |
|------------------------------------------------|----------------------------------------------------------------------------------|
| <b>8.1 Control parameters</b>                  |                                                                                  |
| <b>Exposure limits</b>                         |                                                                                  |
| <b>US OSHA</b>                                 | None established                                                                 |
| <b>ACGIH</b>                                   |                                                                                  |
| Sodium Azide<br>CAS # 26628-22-8               | 0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor) |
| <b>ACGIH Biological Exposure Indices (BEI)</b> | None established                                                                 |
| <b>DFG MAK</b>                                 |                                                                                  |
| Sodium Azide<br>CAS # 26628-22-8               | 0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)      |
| <b>Ireland</b>                                 |                                                                                  |
| Sodium Azide<br>CAS # 26628-22-8               | 0.1 mg/m3 TWA; 0.3 mg/m3 STEL; Potential for cutaneous absorption                |

## SAFETY DATA SHEET

### Section 8 Exposure controls and personal protection (Continued)

#### IOELVs

Sodium Azide  
CAS # 26628-22-8

Possibility of significant uptake through the skin; 0.1 mg/m<sup>3</sup> TWA; 0.3 mg/m<sup>3</sup> STEL

#### NIOSH

None established

#### China

Sodium Azide  
CAS # 26628-22-8

0.3 mg/m<sup>3</sup> Ceiling MAC

#### Croatia

Sodium Azide  
CAS # 26628-22-8

Skin Notation; 0.1 mg/m<sup>3</sup> TWA [GVI]; 0.3 mg/m<sup>3</sup> STEL [KGVI]

Sucrose  
CAS # 57-50-1

10 mg/m<sup>3</sup> TWA [GVI] (listed under Saccharose D (+)); 20 mg/m<sup>3</sup> STEL [KGVI] (listed under Saccharose D (+))

Zinc Chloride  
CAS # 7646-85-7

1 mg/m<sup>3</sup> TWA [GVI] (fume); 2 mg/m<sup>3</sup> STEL [KGVI] (fume)

#### Japan

None established

#### Sweden (AFS 2015:7 and amendments)

Sodium Azide  
CAS # 26628-22-8

0.1 mg/m<sup>3</sup> TLV NGV; 0.3 mg/m<sup>3</sup> Binding STEL Bindande KGV

#### Turkey

Sodium Azide  
CAS # 26628-22-8

0.3 mg/m<sup>3</sup> STEL; Skin notation; 0.1 mg/m<sup>3</sup> TWA

### 8.2 Exposure controls

#### Engineering controls

No special engineering controls are required. Use with good general ventilation.

#### Eye protection

Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

#### Skin protection

Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.

#### Respiratory protection

Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

### Section 9 Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

| <b>Other safety characteristics</b>                             | No further relevant information available.                   |                                                          |                |

### Section 10 Stability and reactivity

|                                                |                                                                                                                                                                                                                           |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>10.1 Reactivity</b>                         | No further relevant information available.                                                                                                                                                                                |
| <b>10.2 Chemical stability</b>                 | The product is stable in accordance with recommended storage conditions.                                                                                                                                                  |
| <b>10.3 Possibility of hazardous reactions</b> | Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. |
| <b>10.4 Conditions to avoid</b>                | Avoid contact with incompatible materials.<br>Avoid exposure to heat and direct sunlight.                                                                                                                                 |
| <b>10.5 Incompatible materials</b>             | Metals and metallic compounds                                                                                                                                                                                             |

Last Revision Date (year/month/day) 2024/10/30

### Section 10 Stability and reactivity (Continued)

#### 10.6 Hazardous decomposition products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

### Section 11 Toxicological information

#### 11.1 Information on hazard classes

##### Toxicity data for hazardous ingredients

Sodium Azide  
CAS # 26628-22-8

Dermal LD50 Rabbit 20 mg/kg (NLM\_HSDB); Inhalation LC50 Rat 0.054 - 0.52 mg/L 4 h (dust)(ECHA\_API); Oral LD50 Rat 27 mg/kg (NZ\_CCID)

reaction mass of: 5-chloro-  
2-methyl-4-isothiazolin  
-3-one [EC# 247-500-7] and  
2-methyl-4-isothiazolin-3-one [EC#  
220-239-6](3:1)  
CAS # 55965-84-9

Dermal LD50 Rabbit 87.12 mg/kg (ECHA\_API); Oral LD50 Rat 53 mg/kg (NLM\_CIP)

##### Primary routes of exposure

Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

##### Acute toxicity

Not classified based on available data.

##### Skin corrosion/irritation

Not classified based on available data.

##### Serious eye damage/irritation

Not classified based on available data.

##### Respiratory or skin sensitisation

May cause sensitization by skin contact.

##### Germ cell mutagenicity

Not classified based on available data.

##### Carcinogenicity

No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

##### Reproductive toxicity

Not classified based on available data.

##### Specific target organ toxicity (STOT) – single exposure

Not classified based on available data.

##### Specific target organ toxicity (STOT) – repeated exposure

Not classified based on available data.

##### Aspiration hazard

Not classified based on available data.

#### 11.2 Information on other hazards

##### Endocrine disrupting properties

## SAFETY DATA SHEET

| <b>Product waste disposal</b>       | <p>Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.</p> <p>Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76). To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.</p> <p>Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.</p> |

## SAFETY DATA SHEET

Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

### Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

## Section 14 Transport information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

**14.1 UN/ID number:** Not regulated for transportation

**14.2 UN proper shipping name:** Not regulated for transportation

**14.3 Transport hazard class(es):** Not regulated for transportation

**14.4 Packing group:** Not regulated for transportation

**14.5 Environmental hazards:** Not regulated for transportation

**14.6 Special precautions for user:** None

**14.7 Maritime transport in bulk according to IMO instruments:** Not applicable

## Section 15 Regulatory information

### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

#### US Federal and State Regulations

##### **SARA 313 (Section 313, Title III reporting requirements)**

CAS # 26628-22-8

Sodium Azide

1.0% de minimis concentration

##### **CERCLA (The Comprehensive Environmental Response, Compensation, and Liability Act) 40 CFR 302.4**

CAS # 7558-79-4

Sodium Phosphate, Dibasic

CAS # 26628-22-8

Sodium Azide

CAS # 7646-85-7

Zinc Chloride

##### **California Proposition 65**

 **WARNING** This product can expose you to chemical which is known to the State of California to cause cancer and/or reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

##### **Chemical which is known to the State of California to cause cancer**

No ingredients listed.

##### **Chemical which is known to the State of California to cause development toxicity**

CAS # 17230-88-5

Danazol

### Section 15 Regulatory information (Continued)

#### Chemical which is known to the State of California to cause male reproductive toxicity

CAS # 17230-88-5      Danazol

#### Chemical which is known to the State of California to cause female reproductive toxicity

CAS # 17230-88-5      Danazol

#### Massachusetts Right To Know (RTK) List

CAS # 7558-79-4      Sodium Phosphate, Dibasic  
CAS # 26628-22-8      Sodium Azide  
CAS # 57-50-1      Sucrose  
CAS # 7646-85-7      Zinc Chloride  
CAS # 17230-88-5      Danazol

#### New Jersey Dept. of Health Right To Know (RTK) List

CAS # 7558-79-4      Sodium Phosphate, Dibasic  
CAS # 26628-22-8      Sodium Azide  
CAS # 7646-85-7      Zinc Chloride

#### Pennsylvania Right To Know (RTK) List

CAS # 7558-79-4      Sodium Phosphate, Dibasic  
CAS # 26628-22-8      Sodium Azide  
CAS # 57-50-1      Sucrose  
CAS # 7646-85-7      Zinc Chloride

#### EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

#### Water Hazard Class (Germany)

WGK 1, low water endangering

#### Regulation (EU) 2019/1148 on the marketing and use of explosives precursors - Substances Subject to Suspicious Transactions Reporting

No ingredients listed.

#### Regulation (EU) 2019/1148 on the marketing and use of explosives precursors - Restricted Explosives Precursors

No ingredients listed.

#### REACH 1907/2006 EC - Candidate List of Substances of Very High Concern (SVHC)

No ingredients listed.

#### REACH 1907/2006 EC - Annex XVII – Restrictions on Certain Dangerous Substances

Not applicable.

### Section 15 Regulatory information (Continued)

#### REACH 1907/2006 EC - Annex XIV - list of substances subject to authorisation

No ingredients listed.

Refer to Section 3

#### UK Regulations

#### UK REACH Regulation (as Amended) - List of substances subject to authorisation

Refer to Section 3

#### Canada

This product is exempt from WHMIS label and SDS requirements.

#### China

#### Catalog of Hazardous Chemicals - Hazardous Chemicals

CAS # 26628-22-8 Sodium Azide

CAS # 7646-85-7 Zinc Chloride

#### Inventory - China - Inventory of Existing Chemical Substances (IECSC)

All ingredients are listed or exempted.

#### Turkey

#### Türkiye-REACH - KKDİK Regulation - Annex 17 – Restrictions

No ingredients listed.

#### International

#### UN/FAO/Rotterdam Convention - Chemicals Subject to Prior Informed Consent (PIC)

No ingredients listed.

### 15.2 Chemical safety assessment

A Chemical Safety Assessment has not been carried out.

*Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3.*

### Section 16 Other information (Continued)

**Hazard Classification Procedure** This mixture was classified using the calculation method for human health and environmental hazards. Physical hazards were determined based on the specification.

**Description of hazard class and hazard statements from Section 3**

Aquatic Acute 1 - Aquatic Hazard Acute, Category 1  
Acute Tox. Dermal 2 - Acute Toxicity Dermal, Category 2  
Acute Tox. Inhal. 2 - Acute Toxicity Inhalation, Category 2  
Acute Tox. Oral 2 - Acute Toxicity Oral, Category 2  
Acute Tox. Oral 3 - Acute Toxicity Oral, Category 3  
Eye Dam. 1 - Eye Damage Category 1  
Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1  
Skin Corr. 1C - Skin Corrosion Category 1C  
Skin Sens. 1A - Skin Sensitization Category 1A  
EUH032 - Contact with acids liberates very toxic gas.  
EUH071 - Corrosive to the respiratory tract.  
H300 - Fatal if swallowed.  
H301 - Toxic if swallowed.  
H310 - Fatal in contact with skin.  
H314 - Causes severe skin burns and eye damage.  
H317 - May cause an allergic skin reaction.  
H318 - Causes serious eye damage.  
H330 - Fatal if inhaled.  
H400 - Very toxic to aquatic life.  
H410 - Very toxic to aquatic life with long lasting effects.

**Abbreviations and acronyms**

ACGIH - American Conference of Governmental Industrial Hygienists (ACGIH)  
ADR and RID - European Agreement Concerning the International Carriage of Dangerous Goods by Road and Rail  
CLP - Classification, Labeling and Packaging  
DFGMAK - Republic Germany's maximum exposure limit  
EC50 - Concentration of a substance in an environmental medium expected to produce a certain effect in 50% of test organisms  
GHS - Globally Harmonized System of Classification and Labelling of Chemicals (GHS)  
HCS - Hazard Communication Standard  
IARC - International Agency for Research on Cancer  
IATA DGR - International Air Transport Association Dangerous Goods Regulation  
ICAO - International Civil Aviation Organization  
IDLH - Immediately Dangerous to Life or Health  
IMDG - International Maritime Dangerous Goods  
IMO - International Maritime Organization  
IOELVs - European Unions' Indicative Occupational Exposure Limit Values

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 16 Other information (Continued)

LC50 - Concentration of a substance in water causing death (50% of the tested population) to aquatic life

LD50 - Lethal Dose 50%

NIOSH - National Institute for Occupational Safety and Health

NTP - National Toxicology Program

OSHA - Occupational Safety and Health Administration

PBT - Persistent Bioaccumulative and Toxic substances

PEL - Permissible Exposure Limit

SARA - Superfund Amendments and Reauthorization Act

STEL – Short Term Exposure Limit

STLV - Short Term Limit Value

STV - Short Term Value

TDG - Canadian Transportation of Dangerous Goods Regulations

TLV - Threshold Limit Value

TWA – Time Weighted Average

UN GHS - United Nations Globally Harmonized System

US DOT - United States Department of Transportation

US OSHA - United States Occupational Safety and Health Administration

vPvB - very Persistent and very Bioaccumulative substances

WHMIS - Workplace Hazardous Material Information System

 Revision Date (year/month/day) 2025/06/08  
 Last Revision Date (year/month/day) 2024/10/30

### Section 1 Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

**Product name** Sample Treatment Solution (Compartment R1b)  
**Part number** Component of P/N 33560  
**Series name** ACCESS

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Product use** For In Vitro Diagnostic Use. See product literature for details.

#### 1.3 Details of the supplier of the safety data sheet

##### Manufacturer

Beckman Coulter, Inc.  
 250 S. Kraemer Blvd  
 Brea, CA 92821, U.S.A.  
 Tel: 800-854-3633

##### Supplier

CANADA  
 Beckman Coulter Canada LP  
 7075 Financial Drive  
 Mississauga, ON L5N 6V8  
 Canada  
 1-800-463-7828

UNITED KINGDOM  
 Beckman Coulter (UK) Ltd.  
 Amersham Place  
 Little Chalfont  
 Buckinghamshire  
 United Kingdom, HP7 9NA  
 01494 441181

AUSTRALIA  
 Beckman Coulter Australia Pty Ltd  
 23-27 Chaplin Drive  
 Lane Cove NSW 2066  
 Australia  
 ABN 81 002 011 672  
 24 Hour emergency contact phone  
 number:  
 1800 060 881

SWITZERLAND  
 Beckman Coulter Eurocenter SA  
 22, rue Juste-Olivier, Case Postale  
 1044,  
 CH-1260 Nyon 1, Switzerland.  
 Telephone: +41 (0)22 365 36 11  
 Monday through Friday, 9:00 am to  
 7:00pm)

#### 1.4 Emergency telephone number

**Telephone number (24H)**

Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

**Distributor and emergency phone no.**

Refer to attached list, Document ID: [472050](#), for local distributor and emergency phone numbers.

UNITED STATES - Emergency Phone (24h): Chemtrec (800) 424-9300, International (001) 703-527-3887

CANADA - Poison Centre: 1-844-764-7669; Centre antipoison du Québec: 1-800-463-5060

UNITED KINGDOM - For UK and Scotland: Emergency Call 999

IRELAND - National Poisons Information Centre Phone No.: Members of Public: +353 (01) 809 2166 (8:00 am to 10:00 pm 7 days a week); Healthcare Professionals: +353 (01) 809 2566 (24 hour service)

AUSTRALIA - 24 Hour emergency contact phone number: 1800 060 881

NEW ZEALAND - 24 Hour emergency number: 0800 446 109

### Section 2 Hazards identification

#### 2.1 Classification of the substance or mixture

**Product description**

Mixture

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 2 Hazards identification (Continued)

Colorless; Liquid; Odorless

#### Classification according to EC 1272/2008 (CLP/GHS)

Skin Irritation Category 2, H315

Eye Damage Category 1, H318

#### Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Skin Irritation Category 2

Eye Damage Category 1

#### 2.2 Label elements

##### According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

##### Hazardous ingredients

Acetic Acid

##### Pictogram

##### Signal word

DANGER

##### Hazard statements

H315 Causes skin irritation.

H318 Causes serious eye damage.

##### Precautionary statements

##### Prevention

P280 Wear protective gloves, protective clothing and eye/face protection.

##### Response

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

P310 Immediately call a POISON CENTER or doctor/physician.

P332+P313 If skin irritation occurs: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before use.

##### Storage

None

##### Disposal

None

Product label will display most significant precautionary statements.

#### 2.3 Other hazards

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

2 - Substance with Community workplace exposure limits

8 - Present at concentration below the cut-off limits.

REST - Subject to Restriction as per Annex XVII of REACH Regulation (EC) No 1907/2006

See section 8 for available Occupational exposure limits

See Section 15 for additional regulatory information

See Section 16 for description of hazard class and hazard statements

## Section 4 First aid measures

### 4.1 Description of first aid measures

#### Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

#### Eye contact

If product enters eyes, rinse eyes gently with water for 15 minutes or longer, making sure that the eyelid is held open. Obtain medical advice/attention.

#### Skin contact

In case of skin contact, rinse with plenty of water. Remove contaminated clothing and shoes. If pain or irritation occurs, obtain medical advice/attention.

#### Ingestion

If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

### 4.2 Most important symptoms and effects, both acute and delayed

Contact may cause serious eye damage.

May cause skin irritation.

See Section 11 Toxicological Information for more detailed health information.

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 4 First aid measures (Continued)

#### 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

### Section 5 Firefighting measures

**5.1 Extinguishing media** In case of fire use carbon dioxide (CO<sub>2</sub>), dry chemical, water spray or foam.  
For large fires use extinguishing media suitable for surrounding fire.

#### 5.2 Special hazards arising from the substance or mixture Special fire and explosion hazards

No special hazards determined.

#### Hazardous combustion products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

#### 5.3 Advice for firefighters

##### Protective equipment

Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

##### Additional information

No further relevant information available.

### Section 6 Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

##### Personal precautions

Observe general safety guidelines for protection; avoid eye and skin contact.  
Wear protective gloves, protective clothing and tightly sealed eye/face protection.

#### 6.2 Environmental precautions

Contain spill to prevent migration.  
Do not allow the undiluted product to enter sewers/surface or ground water.  
Dispose of contents/container in accordance with local regulations

#### 6.3 Methods and material for containment and cleaning up

##### Spill and leak procedures

Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

#### 6.4 Reference to other sections

Refer sections 8 and 13.

### Section 7 Handling and storage

**7.1 Precautions for safe handling** Use good laboratory procedures; avoid eye and skin contact.

#### 7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 10°C, as directed on the product label.  
To maintain product quality, store according to the instructions in the product labeling.  
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

#### 7.3 Specific end uses

No further relevant information available.

## SAFETY DATA SHEET

Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 8 Exposure controls and personal protection

#### 8.1 Control parameters

##### Exposure limits

##### US OSHA

Acetic Acid  
CAS # 64-19-7 10 ppm TWA; 25 mg/m<sup>3</sup> TWA

##### ACGIH

Acetic Acid  
CAS # 64-19-7 15 ppm STEL; 10 ppm TWA

Sodium Azide  
CAS # 26628-22-8 0.29 mg/m<sup>3</sup> Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

##### ACGIH Biological Exposure Indices (BEI)

None established

##### DFG MAK

Acetic Acid  
CAS # 64-19-7 20 ppm Peak; 50 mg/m<sup>3</sup> Peak; 10 ppm TWA MAK; 25 mg/m<sup>3</sup> TWA MAK

Sodium Azide  
CAS # 26628-22-8 0.4 mg/m<sup>3</sup> Peak (inhalable fraction); 0.2 mg/m<sup>3</sup> TWA MAK (inhalable fraction)

##### Ireland

Acetic Acid  
CAS # 64-19-7 20 ppm TWA; 50 mg/m<sup>3</sup> TWA; 20 ppm STEL; 50 mg/m<sup>3</sup> STEL

Sodium Azide  
CAS # 26628-22-8 0.1 mg/m<sup>3</sup> TWA; 0.3 mg/m<sup>3</sup> STEL; Potential for cutaneous absorption

##### IOELVs

Acetic Acid  
CAS # 64-19-7 25 mg/m<sup>3</sup> TWA; 10 ppm TWA; 50 mg/m<sup>3</sup> STEL; 20 ppm STEL

Sodium Azide  
CAS # 26628-22-8 Possibility of significant uptake through the skin; 0.1 mg/m<sup>3</sup> TWA; 0.3 mg/m<sup>3</sup> STEL

##### NIOSH

Acetic Acid  
CAS # 64-19-7 50 ppm IDLH; 15 ppm STEL; 37 mg/m<sup>3</sup> STEL; 10 ppm TWA; 25 mg/m<sup>3</sup> TWA

##### China

Acetic Acid  
CAS # 64-19-7 20 mg/m<sup>3</sup> STEL; 10 mg/m<sup>3</sup> TWA

Sodium Azide  
CAS # 26628-22-8 0.3 mg/m<sup>3</sup> Ceiling MAC

##### Croatia

Acetic Acid  
CAS # 64-19-7 10 ppm TWA [GVI]; 25 mg/m<sup>3</sup> TWA [GVI]; 20 ppm STEL [KGVI]; 50 mg/m<sup>3</sup> STEL [KGVI]

Sodium Azide  
CAS # 26628-22-8 Skin Notation; 0.1 mg/m<sup>3</sup> TWA [GVI]; 0.3 mg/m<sup>3</sup> STEL [KGVI]

## SAFETY DATA SHEET

Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 8 Exposure controls and personal protection (Continued)

#### Japan

Acetic Acid  
CAS # 64-19-7 10 ppm OEL; 25 mg/m3 OEL

#### Sweden (AFS 2015:7 and amendments)

Acetic Acid  
CAS # 64-19-7 5 ppm TLV NGV; 13 mg/m3 TLV NGV; 10 ppm Binding STEL Bindande KGV; 25 mg/m3 Binding STEL Bindande KGV

Sodium Azide  
CAS # 26628-22-8 0.1 mg/m3 TLV NGV; 0.3 mg/m3 Binding STEL Bindande KGV

#### Turkey

Acetic Acid  
CAS # 64-19-7 10 ppm TWA; 25 mg/m3 TWA

Sodium Azide  
CAS # 26628-22-8 0.3 mg/m3 STEL; Skin notation; 0.1 mg/m3 TWA

### 8.2 Exposure controls

#### Engineering controls

No special engineering controls are required. Use with good general ventilation.

#### Eye protection

Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

#### Skin protection

Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.

#### Respiratory protection

Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

### Section 9 Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

|                                                                 |                |                                                          |                |

### Section 10 Stability and reactivity

|                                                |                                                                                                                                                                                                                           |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>10.1 Reactivity</b>                         | No further relevant information available.                                                                                                                                                                                |
| <b>10.2 Chemical stability</b>                 | The product is stable in accordance with recommended storage conditions.                                                                                                                                                  |
| <b>10.3 Possibility of hazardous reactions</b> | Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. |
| <b>10.4 Conditions to avoid</b>                | Avoid contact with incompatible materials.<br>Avoid exposure to heat and direct sunlight.                                                                                                                                 |
| <b>10.5 Incompatible materials</b>             | Metals and metallic compounds                                                                                                                                                                                             |
| <b>10.6 Hazardous decomposition products</b>   | No decomposition products posing significant hazards would be expected from this product (an aqueous solution).                                                                                                           |

### Section 11 Toxicological information

|                                                |                                                                                                                                      |
|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| <b>11.1 Information on hazard classes</b>      |                                                                                                                                      |
| <b>Toxicity data for hazardous ingredients</b> |                                                                                                                                      |
| Acetic Acid<br>CAS # 64-19-7                   | Dermal LD50 Rabbit 1060 mg/kg (JAPAN_GHS); Inhalation LC50 Rat 11.4 mg/L 4 h (NLM_CIP); Oral LD50 Rat 3310 mg/kg (JAPAN_GHS)         |
| Sodium Azide<br>CAS # 26628-22-8               | Dermal LD50 Rabbit 20 mg/kg (NLM_HSDB); Inhalation LC50 Rat 0.054 - 0.52 mg/L 4 h (dust)(ECHA_API); Oral LD50 Rat 27 mg/kg (NZ_CCID) |
| <b>Primary routes of exposure</b>              | Eye contact, ingestion, inhalation, and skin contact.                                                                                |
| <b>Acute toxicity</b>                          | Not classified based on available data.                                                                                              |

## SAFETY DATA SHEET

Last Revision Date (year/month/day) 2024/10/30

### Section 11 Toxicological information (Continued)

|                                                                  |                                                                                                                |
|------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------|
| <b>Skin corrosion/irritation</b>                                 | May cause skin irritation.                                                                                     |
| <b>Serious eye damage/irritation</b>                             | Contact may cause serious eye damage.                                                                          |
| <b>Respiratory or skin sensitisation</b>                         | Not classified based on available data.                                                                        |
| <b>Germ cell mutagenicity</b>                                    | Not classified based on available data.                                                                        |
| <b>Carcinogenicity</b>                                           | No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation. |
| <b>Reproductive toxicity</b>                                     | Not classified based on available data.                                                                        |
| <b>Specific target organ toxicity (STOT) – single exposure</b>   | Not classified based on available data.                                                                        |
| <b>Specific target organ toxicity (STOT) – repeated exposure</b> | Not classified based on available data.                                                                        |
| <b>Aspiration hazard</b>                                         | Not classified based on available data.                                                                        |

#### 11.2 Information on other hazards

##### Endocrine disrupting properties

This product does not have substance(s) of endocrine disrupting properties for health according to REACH Article 57(f).

**Other information** No further relevant information available.

### Section 12 Ecological information

#### 12.1 Toxicity

##### Fresh water species

Acetic Acid  
CAS # 64-19-7

LC50 96 h Pimephales promelas: 79 mg/L [static] (EPA); LC50 96 h Lepomis macrochirus: 75 mg/L [static] (EPA)

Sodium Azide  
CAS # 26628-22-8

LC50 96 h Oncorhynchus mykiss: 0.8 mg/L; LC50 96 h Lepomis macrochirus: 0.7 mg/L; LC50 96 h Pimephales promelas: 5.46 mg/L [flow-through]

##### Microtox/organisms

No information available.

##### Water flea

Acetic Acid  
CAS # 64-19-7

EC50 48 h Daphnia magna: 65 mg/L [Static] (EPA)

##### Fresh water algae

No information available.

**12.2 Persistence and degradability** Not determined for the product.

**12.3 Bioaccumulative potential** Not determined for the product.

**12.4 Mobility in soil** Not determined for the product.

#### 12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 12 Ecological information (Continued)

#### 12.6 Endocrine disrupting properties

This product does not have substance(s) of endocrine disrupting properties for environment according to REACH Article 57(f).

#### 12.7 Other adverse effects

This product is classified as environmentally hazardous. Do not allow undiluted product to enter sewer/surface or ground water. Dispose of contents/container to in accordance with local/national regulations

### Section 13 Disposal considerations

#### 13.1 Waste treatment methods

##### Product waste disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76). To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

##### Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

##### Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

### Section 14 Transport information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

**14.1 UN/ID number:** Not regulated for transportation

**14.2 UN proper shipping name:** Not regulated for transportation

**14.3 Transport hazard class(es):** Not regulated for transportation

**14.4 Packing group:** Not regulated for transportation

**14.5 Environmental hazards:** Not regulated for transportation

**14.6 Special precautions for user:** None

**14.7 Maritime transport in bulk according to IMO instruments:** Not applicable

### Section 15 Regulatory information

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

##### US Federal and State Regulations

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 15 Regulatory information (Continued)

#### SARA 313 (Section 313, Title III reporting requirements)

CAS # 26628-22-8      Sodium Azide      1.0% de minimis concentration

#### CERCLA (The Comprehensive Environmental Response, Compensation, and Liability Act) 40 CFR 302.4

CAS # 64-19-7      Acetic Acid  
CAS # 26628-22-8      Sodium Azide

#### California Proposition 65

##### Chemical which is known to the State of California to cause cancer

No ingredients listed.

##### Chemical which is known to the State of California to cause development toxicity

No ingredients listed.

##### Chemical which is known to the State of California to cause male reproductive toxicity

No ingredients listed.

##### Chemical which is known to the State of California to cause female reproductive toxicity

No ingredients listed.

#### Massachusetts Right To Know (RTK) List

CAS # 64-19-7      Acetic Acid  
CAS # 26628-22-8      Sodium Azide

#### New Jersey Dept. of Health Right To Know (RTK) List

CAS # 64-19-7      Acetic Acid  
CAS # 26628-22-8      Sodium Azide

#### Pennsylvania Right To Know (RTK) List

CAS # 64-19-7      Acetic Acid  
CAS # 26628-22-8      Sodium Azide

#### EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

#### Water Hazard Class (Germany)

WGK 1, low water endangering

#### Regulation (EU) 2019/1148 on the marketing and use of explosives precursors - Substances Subject to Suspicious Transactions Reporting

No ingredients listed.

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 15 Regulatory information (Continued)

#### Regulation (EU) 2019/1148 on the marketing and use of explosives precursors - Restricted Explosives Precursors

No ingredients listed.

#### REACH 1907/2006 EC - Candidate List of Substances of Very High Concern (SVHC)

No ingredients listed.

#### REACH 1907/2006 EC - Annex XVII – Restrictions on Certain Dangerous Substances

CAS # 64-19-7

Acetic Acid

Entry No.: 75 (B)

#### REACH 1907/2006 EC - Annex XIV - list of substances subject to authorisation

No ingredients listed.

Refer to Section 3

#### UK Regulations

#### UK REACH Regulation (as Amended) - List of substances subject to authorisation

Refer to Section 3

#### Canada

This product is exempt from WHMIS label and SDS requirements.

#### China

#### Catalog of Hazardous Chemicals - Hazardous Chemicals

CAS # 64-19-7

Acetic Acid

CAS # 26628-22-8

Sodium Azide

#### Inventory - China - Inventory of Existing Chemical Substances (IECSC)

All ingredients are listed or exempted.

#### Turkey

#### Türkiye-REACH - KKDİK Regulation - Annex 17 – Restrictions

No ingredients listed.

#### International

#### UN/FAO/Rotterdam Convention - Chemicals Subject to Prior Informed Consent (PIC)

No ingredients listed.

### 15.2 Chemical safety assessment

A Chemical Safety Assessment has not been carried out.

*Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3.*

Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 16 Other information (Continued)

IOELVs - European Unions' Indicative Occupational Exposure Limit Values  
LC50 - Concentration of a substance in water causing death (50% of the tested population) to aquatic life  
LD50 - Lethal Dose 50%  
NIOSH - National Institute for Occupational Safety and Health  
NTP - National Toxicology Program  
OSHA - Occupational Safety and Health Administration  
PBT - Persistent Bioaccumulative and Toxic substances  
PEL - Permissible Exposure Limit  
SARA - Superfund Amendments and Reauthorization Act  
STEL – Short Term Exposure Limit  
STLV - Short Term Limit Value  
STV - Short Term Value  
TDG - Canadian Transportation of Dangerous Goods Regulations  
TLV - Threshold Limit Value  
TWA – Time Weighted Average  
UN GHS - United Nations Globally Harmonized System  
US DOT - United States Department of Transportation  
US OSHA - United States Occupational Safety and Health Administration  
vPvB - very Persistent and very Bioaccumulative substances  
WHMIS - Workplace Hazardous Material Information System

 Revision Date (year/month/day) 2025/06/08  
 Last Revision Date (year/month/day) 2024/10/30

### Section 1 Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

**Product name** Antibody (Compartment R1c)  
**Part number** Component of P/N 33560  
**Series name** ACCESS

#### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Product use** For In Vitro Diagnostic Use. See product literature for details.

#### 1.3 Details of the supplier of the safety data sheet

##### Manufacturer

Beckman Coulter, Inc.  
 250 S. Kraemer Blvd  
 Brea, CA 92821, U.S.A.  
 Tel: 800-854-3633

##### Supplier

CANADA  
 Beckman Coulter Canada LP  
 7075 Financial Drive  
 Mississauga, ON L5N 6V8  
 Canada  
 1-800-463-7828

UNITED KINGDOM  
 Beckman Coulter (UK) Ltd.  
 Amersham Place  
 Little Chalfont  
 Buckinghamshire  
 United Kingdom, HP7 9NA  
 01494 441181

AUSTRALIA  
 Beckman Coulter Australia Pty Ltd  
 23-27 Chaplin Drive  
 Lane Cove NSW 2066  
 Australia  
 ABN 81 002 011 672  
 24 Hour emergency contact phone  
 number:  
 1800 060 881

SWITZERLAND  
 Beckman Coulter Eurocenter SA  
 22, rue Juste-Olivier, Case Postale  
 1044,  
 CH-1260 Nyon 1, Switzerland.  
 Telephone: +41 (0)22 365 36 11  
 Monday through Friday, 9:00 am to  
 7:00pm)

#### 1.4 Emergency telephone number

**Telephone number (24H)**

Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

**Distributor and emergency phone no.**

Refer to attached list, Document ID: [472050](#), for local distributor and emergency phone numbers.

UNITED STATES - Emergency Phone (24h): Chemtrec (800) 424-9300, International (001) 703-527-3887

CANADA - Poison Centre: 1-844-764-7669; Centre antipoison du Québec: 1-800-463-5060

UNITED KINGDOM - For UK and Scotland: Emergency Call 999

IRELAND - National Poisons Information Centre Phone No.: Members of Public: +353 (01) 809 2166 (8:00 am to 10:00 pm 7 days a week); Healthcare Professionals: +353 (01) 809 2566 (24 hour service)

AUSTRALIA - 24 Hour emergency contact phone number: 1800 060 881

NEW ZEALAND - 24 Hour emergency number: 0800 446 109

### Section 2 Hazards identification

#### 2.1 Classification of the substance or mixture

**Product description**

Mixture

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 2 Hazards identification (Continued)

Colorless; Liquid; Odorless

#### Classification according to EC 1272/2008 (CLP/GHS)

Skin Sensitization Category 1, H317

Aquatic Hazard Long term, Category 3, H412

#### Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Aquatic Hazard Acute, Category 3

Aquatic Hazard Long term, Category 3

#### 2.2 Label elements

#### According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

##### Hazardous ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and  
2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

##### Pictogram

##### Signal word

WARNING

##### Hazard statements

H317 May cause an allergic skin reaction.

H412 Harmful to aquatic life with long lasting effects.

##### Precautionary statements

##### Prevention

P261 Avoid breathing vapours.

P272 Contaminated work clothing should not be allowed out of the workplace.

P273 Avoid release to the environment.

P280 Wear protective gloves, protective clothing and eye/face protection.

##### Response

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before use.

##### Storage

None

##### Disposal

P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most significant precautionary statements.

# SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

## Section 2 Hazards identification (Continued)

### 2.3 Other hazards

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

## Section 3 Composition and information on ingredients

### 3.2 Mixtures

| Hazardous ingredients:                                                                                                                                                                                |          | Hazard classification of pure ingredients                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                          |      |

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 3 Composition and information on ingredients (Continued)

- 2 - Substance with Community workplace exposure limits  
8 - Present at concentration below the cut-off limits.  
9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits

See Section 15 for additional regulatory information

See Section 16 for description of hazard class and hazard statements

### Section 4 First aid measures

#### 4.1 Description of first aid measures

|                     |                                                                                                                                                                                          |
|---------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Inhalation</b>   | If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately. |
| <b>Eye contact</b>  | If product enters eyes, rinse eyes gently with water as a precaution.                                                                                                                    |
| <b>Skin contact</b> | In case of skin contact, rinse with water as a precaution.                                                                                                                               |
| <b>Ingestion</b>    | If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.                                                                |

#### 4.2 Most important symptoms and effects, both acute and delayed

May cause an allergic skin reaction.  
See Section 11 Toxicological Information for more detailed health information.

#### 4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

### Section 5 Firefighting measures

- 5.1 Extinguishing media** In case of fire use carbon dioxide (CO<sub>2</sub>), dry chemical, water spray or foam.  
For large fires use extinguishing media suitable for surrounding fire.

**5.2 Special hazards arising from the substance or mixture**  
**Special fire and explosion hazards**

No special hazards determined.

**Hazardous combustion products**

No combustion products posing significant hazards are expected from this product (an aqueous solution).

#### 5.3 Advice for firefighters

**Protective equipment** Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

**Additional information** No further relevant information available.

### Section 6 Accidental release measures

#### 6.1 Personal precautions, protective equipment and emergency procedures

## SAFETY DATA SHEET

Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 6 Accidental release measures (Continued)

|                                                                 |                                                                                                                                                                                                                                                    |
|-----------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Personal precautions</b>                                     | This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.<br>Wear protective gloves, protective clothing and eye/face protection.                                            |
| <b>6.2 Environmental precautions</b>                            | Contain spill to prevent migration.<br>Do not allow the undiluted product to enter sewers/surface or ground water.<br>Dispose of contents/container in accordance with local regulations                                                           |
| <b>6.3 Methods and material for containment and cleaning up</b> |                                                                                                                                                                                                                                                    |
| <b>Spill and leak procedures</b>                                | As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations. |
| <b>6.4 Reference to other sections</b>                          | Refer sections 8 and 13.                                                                                                                                                                                                                           |

### Section 7 Handling and storage

|                                                                         |                                                                                                                                                                                                                                                             |
|-------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>7.1 Precautions for safe handling</b>                                | This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.                                                                                                     |
| <b>7.2 Conditions for safe storage, including any incompatibilities</b> | Store at 2 to 10°C, as directed on the product label.<br>To maintain product quality, store according to the instructions in the product labeling.<br>Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10). |
| <b>7.3 Specific end uses</b>                                            | No further relevant information available.                                                                                                                                                                                                                  |

### Section 8 Exposure controls and personal protection

|                                                |                                                                                  |
|------------------------------------------------|----------------------------------------------------------------------------------|
| <b>8.1 Control parameters</b>                  |                                                                                  |
| <b>Exposure limits</b>                         |                                                                                  |

Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 8 Exposure controls and personal protection (Continued)

#### IOELVs

Sodium Azide  
CAS # 26628-22-8

Possibility of significant uptake through the skin; 0.1 mg/m<sup>3</sup> TWA; 0.3 mg/m<sup>3</sup> STEL

#### NIOSH

None established

#### China

Sodium Azide  
CAS # 26628-22-8

0.3 mg/m<sup>3</sup> Ceiling MAC

#### Croatia

Sodium Azide  
CAS # 26628-22-8

Skin Notation; 0.1 mg/m<sup>3</sup> TWA [GVI]; 0.3 mg/m<sup>3</sup> STEL [KGVI]

Zinc Chloride  
CAS # 7646-85-7

1 mg/m<sup>3</sup> TWA [GVI] (fume); 2 mg/m<sup>3</sup> STEL [KGVI] (fume)

#### Japan

None established

#### Sweden (AFS 2015:7 and amendments)

Sodium Azide  
CAS # 26628-22-8

0.1 mg/m<sup>3</sup> TLV NGV; 0.3 mg/m<sup>3</sup> Binding STEL Bindande KGV

#### Turkey

Sodium Azide  
CAS # 26628-22-8

0.3 mg/m<sup>3</sup> STEL; Skin notation; 0.1 mg/m<sup>3</sup> TWA

### 8.2 Exposure controls

#### Engineering controls

No special engineering controls are required. Use with good general ventilation.

#### Eye protection

Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

#### Skin protection

Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.

#### Respiratory protection

Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

### Section 9 Physical and chemical properties

#### 9.1 Information on basic physical and chemical properties

|                |           |                                 |                |
|----------------|-----------|---------------------------------|----------------|
| Physical state | Liquid    | Density and/or relative density | 1.01           |
| Color          | Colorless | Solubility                      |                |
| Odor           | Odorless  | Water                           | Miscible       |
| pH             | 8.1       | Organic                         | Not determined |

| <b>Information with regard to physical hazard classes</b>               | Not applicable<br>No further relevant information available. |                                                                  |                |
| <b>Other safety characteristics</b>                                     | No further relevant information available.                   |                                                                  |                |

### Section 10 Stability and reactivity

|                                                |                                                                                                                                                                                                                           |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>10.1 Reactivity</b>                         | No further relevant information available.                                                                                                                                                                                |
| <b>10.2 Chemical stability</b>                 | The product is stable in accordance with recommended storage conditions.                                                                                                                                                  |
| <b>10.3 Possibility of hazardous reactions</b> | Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. |
| <b>10.4 Conditions to avoid</b>                | Avoid contact with incompatible materials.<br>Avoid exposure to heat and direct sunlight.                                                                                                                                 |
| <b>10.5 Incompatible materials</b>             | Metals and metallic compounds                                                                                                                                                                                             |
| <b>10.6 Hazardous decomposition products</b>   | No decomposition products posing significant hazards would be expected from this product (an aqueous solution).                                                                                                           |

## SAFETY DATA SHEET

Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 11 Toxicological information

#### 11.1 Information on hazard classes

##### Toxicity data for hazardous ingredients

Sodium Azide  
CAS # 26628-22-8

Dermal LD50 Rabbit 20 mg/kg (NLM\_HSDB); Inhalation LC50 Rat 0.054 - 0.52 mg/L 4 h (dust)(ECHA\_API); Oral LD50 Rat 27 mg/kg (NZ\_CCID)

reaction mass of: 5-chloro-  
2-methyl-4-isothiazolin  
-3-one [EC# 247-500-7] and  
2-methyl-4-isothiazolin-3-one [EC#  
220-239-6](3:1)  
CAS # 55965-84-9

Dermal LD50 Rabbit 87.12 mg/kg (ECHA\_API); Oral LD50 Rat 53 mg/kg (NLM\_CIP)

##### Primary routes of exposure

Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

##### Acute toxicity

Not classified based on available data.

##### Skin corrosion/irritation

Not classified based on available data.

##### Serious eye damage/irritation

Not classified based on available data.

##### Respiratory or skin sensitisation

May cause sensitization by skin contact.

##### Germ cell mutagenicity

Not classified based on available data.

##### Carcinogenicity

No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

##### Reproductive toxicity

Not classified based on available data.

##### Specific target organ toxicity (STOT) – single exposure

Not classified based on available data.

##### Specific target organ toxicity (STOT) – repeated exposure

Not classified based on available data.

##### Aspiration hazard

Not classified based on available data.

#### 11.2 Information on other hazards

##### Endocrine disrupting properties

This product does not have substance(s) of endocrine disrupting properties for health according to REACH Article 57(f).

##### Other information

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

## SAFETY DATA SHEET

Document ID: 33560-75 Version: AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 12 Ecological information

#### 12.1 Toxicity

##### Fresh water species

Sodium Azide  
CAS # 26628-22-8

LC50 96 h Oncorhynchus mykiss: 0.8 mg/L; LC50 96 h Lepomis macrochirus:  
0.7 mg/L; LC50 96 h Pimephales promelas: 5.46 mg/L [flow-through]

##### Microtox/organisms

No information available.

##### Water flea

No information available.

##### Fresh water algae

No information available.

**12.2 Persistence and degradability** Not determined for the product.

**12.3 Bioaccumulative potential** Not determined for the product.

**12.4 Mobility in soil** Not determined for the product.

#### 12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

#### 12.6 Endocrine disrupting properties

This product does not have substance(s) of endocrine disrupting properties for environment according to REACH Article 57(f).

#### 12.7 Other adverse effects

This product is classified as environmentally hazardous. Do not allow undiluted product to enter sewer/surface or ground water. Dispose of contents/container to in accordance with local/national regulations

### Section 13 Disposal considerations

#### 13.1 Waste treatment methods

##### Product waste disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76). To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

##### Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

##### Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

### Section 14 Transport information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

- 14.1 UN/ID number:** Not regulated for transportation
- 14.2 UN proper shipping name:** Not regulated for transportation
- 14.3 Transport hazard class(es):** Not regulated for transportation
- 14.4 Packing group:** Not regulated for transportation
- 14.5 Environmental hazards:** Not regulated for transportation
- 14.6 Special precautions for user:** None
- 14.7 Maritime transport in bulk according to IMO instruments:** Not applicable

### Section 15 Regulatory information

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

##### US Federal and State Regulations

##### **SARA 313 (Section 313, Title III reporting requirements)**

|                  |              |                               |

#### EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

#### **Water Hazard Class (Germany)**

WGK 1, low water endangering

#### **Regulation (EU) 2019/1148 on the marketing and use of explosives precursors - Substances Subject to Suspicious Transactions Reporting**

No ingredients listed.

#### **Regulation (EU) 2019/1148 on the marketing and use of explosives precursors - Restricted Explosives Precursors**

No ingredients listed.

#### **REACH 1907/2006 EC - Candidate List of Substances of Very High Concern (SVHC)**

No ingredients listed.

#### **REACH 1907/2006 EC - Annex XVII – Restrictions on Certain Dangerous Substances**

Not applicable.

#### **REACH 1907/2006 EC - Annex XIV - list of substances subject to authorisation**

No ingredients listed.

Refer to Section 3

#### UK Regulations

#### **UK REACH Regulation (as Amended) - List of substances subject to authorisation**

Refer to Section 3

#### Canada

This product is exempt from WHMIS label and SDS requirements.

#### China

#### **Catalog of Hazardous Chemicals - Hazardous Chemicals**

Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 15 Regulatory information (Continued)

#### Inventory - China - Inventory of Existing Chemical Substances (IECSC)

All ingredients are listed or exempted.

#### Turkey

#### Türkiye-REACH - KKDIK Regulation - Annex 17 – Restrictions

No ingredients listed.

#### International

#### UN/FAO/Rotterdam Convention - Chemicals Subject to Prior Informed Consent (PIC)

No ingredients listed.

#### 15.2 Chemical safety assessment

A Chemical Safety Assessment has not been carried out.

*Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3.*

### Section 16 Other information

**Hazard Classification Procedure** This mixture was classified using the calculation method for human health and environmental hazards. Physical hazards were determined based on the specification.

#### Description of hazard class and hazard statements from Section 3

Aquatic Acute 1 - Aquatic Hazard Acute, Category 1  
Acute Tox. Dermal 2 - Acute Toxicity Dermal, Category 2  
Acute Tox. Inhal. 2 - Acute Toxicity Inhalation, Category 2  
Acute Tox. Oral 2 - Acute Toxicity Oral, Category 2  
Acute Tox. Oral 3 - Acute Toxicity Oral, Category 3  
Eye Dam. 1 - Eye Damage Category 1  
Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1  
Skin Corr. 1C - Skin Corrosion Category 1C  
Skin Sens. 1A - Skin Sensitization Category 1A  
EUH032 - Contact with acids liberates very toxic gas.  
EUH071 - Corrosive to the respiratory tract.

## SAFETY DATA SHEET

Document ID: 33560-75 Version AR  
Revision Date (year/month/day) 2025/06/08  
Last Revision Date (year/month/day) 2024/10/30

### Section 16 Other information (Continued)

#### Abbreviations and acronyms

H300 - Fatal if swallowed.  
H301 - Toxic if swallowed.  
H310 - Fatal in contact with skin.  
H314 - Causes severe skin burns and eye damage.  
H317 - May cause an allergic skin reaction.  
H318 - Causes serious eye damage.  
H330 - Fatal if inhaled.  
H400 - Very toxic to aquatic life.  
H410 - Very toxic to aquatic life with long lasting effects.  
ACGIH - American Conference of Governmental Industrial Hygienists (ACGIH)  
ADR and RID - European Agreement Concerning the International Carriage of Dangerous Goods by Road and Rail  
CLP - Classification, Labeling and Packaging  
DFGMAK - Republic Germany's maximum exposure limit  
EC50 - Concentration of a substance in an environmental medium expected to produce a certain effect in 50% of test organisms  
GHS - Globally Harmonized System of Classification and Labelling of Chemicals (GHS)  
HCS - Hazard Communication Standard  
IARC - International Agency for Research on Cancer  
IATA DGR - International Air Transport Association Dangerous Goods Regulation  
ICAO - International Civil Aviation Organization  
IDLH - Immediately Dangerous to Life or Health  
IMDG - International Maritime Dangerous Goods  
IMO - International Maritime Organization  
IOELVs - European Unions' Indicative Occupational Exposure Limit Values  
LC50 - Concentration of a substance in water causing death (50% of the tested population) to aquatic life  
LD50 - Lethal Dose 50%  
NIOSH - National Institute for Occupational Safety and Health  
NTP - National Toxicology Program  
OSHA - Occupational Safety and Health Administration  
PBT - Persistent Bioaccumulative and Toxic substances  
PEL - Permissible Exposure Limit  
SARA - Superfund Amendments and Reauthorization Act  
STEL – Short Term Exposure Limit  
STLV - Short Term Limit Value  
STV - Short Term Value  
TDG - Canadian Transportation of Dangerous Goods Regulations  
TLV - Threshold Limit Value  
TWA – Time Weighted Average
