

# **SAFETY DATA SHEET (SDS)**

**SDS- AZ-2693**

**Revision number: v1**

**Rev: 2/22**

**Concentrated Washing Solution 3**

**Part Number:**

**101687 - 1 L/bottle, 1 bottle/box**

**For use with the AUTION Max AX-4280, AX-4030, and AX-4060**

**ARKRAY USA, Inc.**

**10305 NW 41<sup>st</sup> Street, Suite 100**

**Miami, FL 33178 USA**

**Technical Customer Service Phone:**

**855.646.3108**

**SAFETY DATA SHEET**

SDS No. : 79053EU  
Issue Date : 06 Apr. 2011  
Revision Date : 02 Feb. 2022  
Ver.7.0

**1. Identification of the substance/mixture and of the company/undertaking****1.1 Product identifier**

Product name : Concentrated Washing Solution 3

**1.2 Relevant identified uses of the substance or mixture and uses advised against**

The product is applicable for the following purpose of use only. Use exclusive reagent for cleaning of the parts of the AUTION MAX and AUTION HYBRID instruments.

**1.3 Details of the supplier of the safety data sheet**

ARKRAY FACTORY, Inc.

Address : 1480 Koji, Konan-cho, Koka-shi, Shiga 520-3306, JAPAN

Phone : +81-748-86-6901

Facsimile : +81-748-86-5347

**European representative**

ARKRAY Europe, B. V.

Address : Prof. J. H. Bavincklaan 2, 1183 AT Amstelveen, THE NETHERLANDS

Phone : +31-20-545-2450

Facsimile : +31-20-545-2459

**1.4 Emergency telephone number**

Emergency phone : +31-20-545-2450 (9:00~17:00)

**2. Hazards Identification****2.1 Classification of the substance or mixture****Classification (REGULATION (EC) No 1272/2008)**

Eye damage/irritation :Category2 H320

**2.2 Label elements****Labelling (REGULATION (EC) No 1272/2008)**

Hazard pictogram(s)

Signal word

Warning

Hazard statement(s)

H320 Causes eye irritation

Precautionary statement(s)

P264 Wash hands thoroughly after handling.

P280 Wear protective gloves/ eye protection.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P337+P313 If eye irritation persists: Get medical advice/attention.

### 2.3 Other hazards

Sodium phosphate tribasic Causes skin irritation

Sodium azide The substance may react with acids producing toxic and explosive hydrogen azide. Reactions with heavy metals (In particular, copper, silver, mercury or their compounds) in the presence of water may produce highly explosive azides.

The substance is irritating to the mucous membranes.

## 3. Composition/information on ingredients

### 3.2 Mixtures

| Component                          | Conc. [wt%] | Formula                          | EINECS No. | CAS No.    | Classification Regulation(EC 1272/2008(CLP))                               |
|------------------------------------|-------------|----------------------------------|------------|------------|----------------------------------------------------------------------------|
| Polyoxyethylene Alkyl(12-14)ethers | < 1.0       | —                                | —          | 84133-50-6 | —                                                                          |
| Sodium phosphate tribasic          | < 0.3       | Na <sub>3</sub> PO <sub>4</sub>  | 231-509-8  | 7601-54-9  | Skin Corr. 1; H314                                                         |
| Sodium azide                       | < 0.1       | NaN <sub>3</sub>                 | 247-852-1  | 26628-22-8 | Acute Tox. 2; H300, Aquatic Acute 1; H400, Aquatic Chronic 1; H410, EUH032 |
| Sodium hydrogen phosphate          | < 0.1       | Na <sub>2</sub> HPO <sub>4</sub> | 231-448-7  | 7558-79-4  | —                                                                          |

## 4. First aid measures

### 4.1 Description of first aid measures

#### General notes

Consult a physician. Show this safety data sheet to the doctor in attendance.

#### Following inhalation

Cover the victim with a blanket, and remove to fresh air. Let him/her blow nose and gargle. If trouble breathing, give oxygen quickly. Immediately get medical attention.

#### Following skin contact

Immediately wash thoroughly with water and soap. Immediately get medical attention if itchiness and inflammation occurs.

#### Following eye contact

Immediately wash eyes with plenty of clean water for over 15 minutes and get medical attention.

#### Following ingestion

Rinse mouth, give plenty of water to dilute the substance. Never give anything by mouth to an unconscious person. Immediately get medical attention.

#### Self-protection of the first aider

Wear protective equipment to avoid contact with skin and eyes.

**4.2 Most important symptoms and effects, both acute and delayed**

Skin irritation, Eye irritation

**4.3 Indication of any immediate medical attention and special treatment needed**

For medical attentions and special treatments see Section 4.1.

**5. Firefighting measures****5.1 Extinguishing media****Suitable extinguishing media**

Carbon dioxide, dry chemical, and water spray

**Unsuitable extinguishing media**

Not specified.

**5.2 Special hazards arising from the substance or mixture**

Toxic and irritating dust, fumes, or smoke may be emitted.

**5.3 Advice for firefighters**

Wear self contained breathing apparatus and protective clothing to prevent contact with skin and eyes.

**6. Accidental release measures****6.1 Personal precautions, protective equipment and emergency procedures****6.1.1 For non-emergency personnel**

Evacuate the contaminated area. Avoid contact with skin and eyes directly.

**6.1.2 For emergency responder**

If necessary, wear personal protective equipment. For protective equipment see Section 8.

**6.2 Environmental precautions**

Prevent further leakage or spillage if safe to do so. Do not let product enter drains. Pay attention to avoid release to the environment.

**6.3 Methods and material for containment and cleaning up****6.3.1 For containment:**

Wipe with absorbent such as paper towel.

**6.3.2 For cleans up:**

Rinse the contaminated area with plenty of water.

**6.3.3 Other information:**

No relevant information available.

**6.4 Reference to other sections**

For protective equipment see Section 8.

For disposal see Section 13.

**7. Handling and storage****7.1 Precautions for safe handling****Preventive measures (Exposure Control for handling personnel)**

Wear the protective equipment. Avoid contact with skin and eyes.

Do NOT eat, drink, and smoke when using the product.

After handling, wash hands thoroughly.

**7.2 Conditions for safe storage, including any incompatibilities**

Avoid direct sunlight and store at temperature of 1 to 30 °C. Keep container tightly closed.

**7.3 Specific end use(s)**

Apart from the uses mentioned in section 1.2 no other specific uses are stipulated.

**8. Exposure controls/personal protection****8.1 Control parameters**

The product does not contain any substances for which the allowable concentration has been set.

**8.2 Exposure controls****8.2.1 Appropriate engineering controls**

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

**8.2.2 personal protection equipment:****8.2.2.1 Eye/face protection**

Face shield and safety glasses.

Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).

**8.2.2.2 Skin protection**

Hand protection

Handle with gloves.

The selected protective gloves have to satisfy the specifications of EU Directive 89/686/EEC and the standard EN 374 derived from it.

Other skin protection:

Complete suit protecting against chemicals, the type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.

**8.2.2.3 Respiratory protection**

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

**8.2.3 Environmental exposure controls**

For environmental exposure controls, see Section 6.2.

**9. Physical and chemical properties****9.1 Information on basic physical and chemical properties**

|                              |                                      |
|------------------------------|--------------------------------------|
| Physical state               | liquid                               |
| Colour                       | Colorless to pale yellow transparent |
| Odour                        | No data available.                   |
| Odour threshold              | No data available.                   |
| Melting point/freezing point | No data available.                   |

|                                                     |                                              |

| Density and/or relative density                     | No data available.                           |
| Relative vapour density                             | No data available.                           |
| Particle characteristics                            | Not applicable                               |

## 9.2 Other information

No relevant information available.

## 10. Stability and reactivity

### 10.1 Reactivity

Stable under normal conditions.

### 10.2 Chemical stability

No hazardous reaction when handled and stored according to provisions.

### 10.3 Possibility of hazardous reactions

Stable under recommended storage conditions.

### 10.4 Conditions to avoid

Sunlight, heat, and humidity.

Shall be Stored with reference to Section 7.2.

### 10.5 Incompatible materials

Heavy metals, strong acids, strong oxidizing agents

Store at a distance from incompatible materials.

### 10.6 Hazardous decomposition products

Hydrogen azide (reaction product of sodium azide and acid)

## 11. Toxicological information

### 11.1 Information on hazard classes as defined in Regulation(EC) No 1272/2008

|                      |                                                                                                                    |
|----------------------|--------------------------------------------------------------------------------------------------------------------|
| Acute toxicity       |                                                                                                                    |
| Oral                 | Based on available data, the classification criteria are not met.<br>(Mixture)<br>rat LD50 45 mg/kg (Sodium azide) |
| Dermal               | Based on available data, the classification criteria are not met.                                                  |
| Inhalation (vapours) | Based on available data, the classification criteria are not met.                                                  |

|                                   |                                                                             |
|-----------------------------------|-----------------------------------------------------------------------------|
| Skin corrosion/irritation         | Based on available data, the classification criteria are not met. (Mixture) |
|                                   | Causes severe skin burns and eye damage. (Sodium phosphate tribasic)        |
| Serious eye damage/irritation     | Causes eye irritation .(Mixture)                                            |
| Respiratory or skin sensitisation | Based on available data, the classification criteria are not met.           |
| Germ cell mutagenicity            | Based on available data, the classification criteria are not met.           |
| Carcinogenicity                   | Based on available data, the classification criteria are not met.           |
| Reproductive toxicity             | Based on available data, the classification criteria are not met.           |
| STOT-single exposure              | Based on available data, the classification criteria are not met.           |
| STOT-repeated exposure            | Based on available data, the classification criteria are not met.           |
| Aspiration hazard                 | Based on available data, the classification criteria are not met.           |

**11.2 Information on other hazards**

No relevant information available.

**12. Ecological information****12.1 Toxicity**

Based on available data, the classification criteria are not met. (Mixture)

Algae (*Pseudokirchneriella subcapitata*) ErC50/96H 348µg/L(Sodium azide)

**12.2 Persistence and degradability**

Based on available data, the classification criteria are not met. (Mixture)

1 % by HPLC (Sodium azide)

**12.3 Bioaccumulative potential**

Based on available data, the classification criteria are not met. (Mixture)

Low residualibity (Sodium azide)

**12.4 Mobility in soil**

Based on available data, the classification criteria are not met.

**12.5 Results of PBT and vPvB assessment**

This mixture does not contain any substances that are assessed to be a PBT or a vPvB

**12.6 Endocrine disrupting properties**

This substance does not have endocrine disrupting properties with respect to non-target organisms as it does not meet the criteria set out in section B of Regulation (EU) No 2017/2100

**12.7 Other adverse effects**

No relevant information available..

**13. Disposal considerations****13.1 Waste treatment methods****13.1.1 Product/Packaging disposal**

If the product is unused, dilute the product with a large amount of water before disposing.

**13.1.2 Waste treatment-relevant information**

Contact a licensed professional waste disposal service to dispose of this product.

**13.1.3 Sewage disposal-relevant information**

Do not dump this product into sewers, on the ground or into any body of water.

**13.1.4 Other disposal recommendations**

If used product, ask a licensed disposal company.

Observe all federal, state, and local environmental regulation.

**14. Transport information****14.1 UN number or ID number**

ADR/RID: N/A

IMDG: N/A

IATA: N/A

**14.2 UN proper shipping name**

ADR/RID: N/A

IMDG: N/A

IATA: N/A

**14.3 Transport hazard class(es)**

ADR/RID: N/A

IMDG: N/A

IATA: N/A

**14.4 Packing group**

ADR/RID: N/A

IMDG: N/A

IATA: N/A

**14.5 Environmental hazards**

ADR/RID: N/A

IMDG Marine pollutant: N/A

IATA: N/A

**14.6 Special precautions for user**

When transporting, make sure that there are no leaks in the container, load it so that it does not fall over, fall, or be damaged, and make sure to prevent it from collapsing.

**14.7 Maritime transport in bulk according to IMO instruments**

Not applicable

**15. Regulatory information****15.1 Safety, health, and environmental regulations/legislation specific for the substance or mixture**

(EC) No 1907/2006 (REACH).

(EC) No 1272/2008 (CLP).

(EU) No 453/2010.

(EU) No 2015/ 830

(EU) 2020/878

**15.2 Chemical safety assessment**

No chemical safety assessment has been carried out.

**16. Other information****The date of preparation and revision of the SDS**
